Summary

Experience

Senior Software Engineer at Konverge AI
December 2024 -
- Developed a comprehensive home services booking application, allowing users to seamlessly book beauty treatments, haircuts, massage therapy, cleaning, plumbing, and carpentry services.
- Built a Dynamic and responsive frontend using React, ensuring a smooth and engaging user experience.
- Designed and implemented a Scalable backend architecture with NestJS, enabling efficient service management and seamless user interactions.

Software Developer at Pinnacle Teleservices Pvt Ltd
April 2021 - November 2024
- Designed and developed a high-capacity WhatsApp Campaign Processing Application using Kafka, Node.js, and Microservices, reducing processing time by 90% and supporting 2,000+ clients, including Flipkart, Maharashtra Government, and Pizza Hut.
- Scaled the WhatsApp Campaign Processing Application to handle **10 million users** with **1,000 TPS**, ensuring high availability and efficiency.
- Built the backend of a Flowbuilder application, enabling clients to design and test custom WhatsApp chatbots for improved user engagement.

- Developed a multipurpose NLU API for intent classification and entity extraction using Rasa NLU, integrating it into a voice assistant for enhanced interactions.
- Created a React-based Reporting & Analytics panel for real-time tracking of WhatsApp bot interactions, driving data-driven decision-making.
- Implemented robust data encryption and decryption for API communications, ensuring secure data transmission and compliance with industry standards.
- Delivered scalable WhatsApp chatbot solutions for clients like Apollo, Kalyan Jewellers, and Torrent, with customized middleware for industry-specific automation.
- Optimized application deployment on AWS (EC2, S3), improving scalability and reducing downtime by 75%.

Intern at Pinnacle Teleservices Pvt Ltd
January 2020 - July 2020
